Art Unit: 1633

***Election/Restriction***

Restriction is required under 35 U.S.C. 121 as follows:

Group I: Claims 18-50, drawn to a method of orally delivering a secreted protein into the bloodstream of a mammalian subject by orally administering a DNA construct, classifiable in class 514, subclass 44.

Group II, claim 51, drawn to a method of delivering a secreted protein into the bloodstream of a mammalian subject by suppository administration of a DNA construct.

The inventions are distinct, each from the other because of the following reasons:

Invention I and Invention II are directed to structurally distinct steps in order to provide a solution of delivering a secreted protein into the bloodstream of a mammalian subject. The main feature of Invention I is to use oral route for delivering a DNA construct whereas the main feature of Invention II is to employ a solid carrier designed to melt within any body cavity other than a mouth. A search and examination of Invention I does not necessarily overlap with that of Invention II, and *vice versa*.

Should Group I be elected, the group claims are generic to a plurality of disclosed patentably distinct species comprising:

1/ A DNA construct which is not contained within a viral particle and is formulated in a particular formulation as listed in claim 21.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of a particular formulation even though this requirement is traversed.

2/ A specifically named protein as listed in claims 26-50

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of a particular species of named protein even though this requirement is traversed.

Art Unit: 1633

Should applicant traverse on the ground that the species as indicated above are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Because of the patentably distinct species as listed above, it would be unduly burdensome for the examiner to search and examine all of the subject matter being sought in the presently pending claims, and thus, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

Any inquiry concerning this communication or earlier communications regarding the formalities should be directed to Patent Analyst Dianiece Jacobs, whose telephone number is **(703) 305-3388**.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner *Dave Nguyen* whose telephone number is **(703) 305-2024**.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, *Deborah Reynolds*, may be reached at **(703) 305-4051**.

Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CM1 Fax Center number is **(703) 305-7401**.

Any inquiry of a general nature or relating to the status of this application should be directed to the *Group receptionist* whose telephone number is **(703) 308-0196**.
